

Announcement on the formal strategic cooperation between Handal Energy Berhad and Bizinvin LLC

Dear investors, partners and stakeholders:

We are pleased to announce that Handal Energy Berhad has officially entered into a strategic partnership and investment with Bizinvin LLC . Together, we are exploring how to use Solana technology to build innovative Web3 projects. This partnership aims to bring together the resources of both parties to jointly promote the development of the Web3 field, which is expected to achieve innovation and disruption. By combining Handal Energy Berhad's expertise in financial markets with Bizinvin LLC 's extensive resources and technical strength, we will enable the development of the innovative project Melic NFT and thereby enhance the market competitiveness and influence of both parties in the Web3 and RWA fields.

Bizinvin LLC is one of the only five companies with legal lottery licenses in the Outer Mongolian market and the first company to conduct scratch-off lottery business in Outer Mongolia. The company has a solid foundation and broad prospects in the local market. By getting involved in blockchain technology, the company has demonstrated its commitment to innovation and its willingness to embrace emerging trends in the technology industry. This cooperation between the two

parties will combine the company's experience in capital operation and market development with Bizinvin LLC's deep accumulation and innovation capabilities in the lottery industry to jointly create a landmark project that leads the development of the industry.

develop and market Melic NFT . The Melic NFT project is centered around 5,000 unique NFTs, each of which represents RWA rights, token airdrop rights, and DeFi mining rights. This innovative product organically combines blockchain technology with real-world asset rights, creating a new model for digital art and financial assets.

Resource sharing and technical support: We will provide comprehensive support and resource sharing for the Melic NFT project to ensure the smooth progress and efficient operation of the project. Bizinvin LLC will use its rich experience in the lottery industry to provide professional guidance and real equity support for the actual operation of the project.

Market expansion and brand promotion: The two parties will jointly formulate and implement market expansion strategies, and through multi-channel and multi-form brand promotion activities, enhance the popularity and recognition of Melic NFT in the global market, promote the project to the international market, and attract more investors' attention and participation.

We believe that through this strategic cooperation, both parties will further enhance their innovation capabilities in the field of blockchain technology and digital assets, and create more market opportunities and investment value. The successful implementation of the Melic NFT project will not only bring significant commercial benefits to both parties, but will also inject new vitality and momentum into the national lottery .

Thank you to all investors and partners for your continued support and trust. We look forward to the cooperation with Bizinvin LLC to bring fruitful results to both parties and jointly promote the development and innovation of the digital economy .
